SUMMARY

Frontend engineer with 6+ years of experience building React and React Native applications across consumer products serving 5M+ total users. Delivered measurable impact through design system architecture, performance optimization, and monetization features — improving developer productivity by 25%, reducing server costs by 90% through legacy re-architecture, and scaling products to 260K+ MAU.

EXPERIENCE

Software Engineer | **EzLabs** Jan 2024 – Nov 2025

React Native · Integrated Mobile App (Ez Charging Station)

- Architected a design token pipeline and shared component library (Button, Modal, Toast), achieving 60% component reuse and reducing UI development time by 25%.
- Integrated NAS Media and BuzzBenefit offerwall SDKs end-to-end; feature drove 12,900 new MAU and 90,000 point payouts within its first month (Aug 2025).
- Drove combined MAU to 262,000 (Sep 2025) through a full UI/UX overhaul and re-launch of two mobile products.
- Managed full iOS and Android release lifecycle — build configuration, code signing, and App Store / Play Store submission.

Tech Stack: React Native, TypeScript, React Query, Recoil

Software Engineer | **Katchers** Aug 2022 – Jan 2024

React · C2M E-Commerce Web & Hybrid App

- Refactored inherited third-party codebase to TypeScript and Recoil, eliminating ~40% of runtime type errors and establishing a stable foundation for future feature development.
- Established E2E testing coverage for critical user journeys (login, checkout, order tracking) using Cypress, integrated into CI pipeline, reducing regression bugs in production.
- Improved Core Web Vitals scores through code splitting and tree shaking, reducing unused JavaScript bundle by ~30%.
- Shipped team-draw, group-buy, points, and coupon features tied to core GMV metrics.

Tech Stack: React, TypeScript, Recoil, Emotion

Software Engineer | **Gleam Media Group.** Aug 2021 – Mar 2022

React · StarPlay K-POP Fan Platform (5M Total Users, 300K+ MAU)

- Re-architected legacy PHP pages as a React SPA, reducing server and hosting costs by 90%.
- Implemented i18n for multi-language support across a globally distributed user base (80%+ international traffic), improving customer satisfaction by 20%.

Tech Stack: React, TypeScript, React Query, Recoil, Emotion

SEO & Performance Marketing Specialist | **Hear.com Korea** Jul 2020 – Feb 2021

SEO Analyst | **Ascent Korea** Dec 2018 – Jul 2020

EDUCATION

Stony Brook University Aug 2010 – Aug 2014

B.A., Sociology & Economics

Dean's List: Fall 2011, Fall 2012, Fall 2013, Spring 2014

SKILLS

Languages & Frameworks: JavaScript (ES2020+), TypeScript, React, React Native, HTML5, CSS3, SASS

State & Data Fetching: Recoil, React Query, Emotion

Testing & Tooling: Cypress (E2E), Git, GitHub, JIRA

Platform: iOS & Android App Store deployment, Webview hybrid apps, i18n

Human Languages: Korean (Native), English (Fluent)
